1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY/UNDERTAKING

Product Name: TRIBAL™ GOLD
Product Code: 00662
Product Use: Selective herbicide for controlling broadleaf weeds in new and established pastures.
Company Name: Nufarm NZ
Address: 6 Manu Street, Otahuhu
Auckland 2024 New Zealand
Emergency Tel. Tel: 0-9-270 4150
Fax: 0-9-270 4159
Email: info@nz.nufarm.com

3. HAZARDS IDENTIFICATION

Health Hazard: Acute over exposure: Headache, nausea and vomiting with possible twitches and spasms in extreme cases.
Inhalation: Not considered a serious hazard because MCPA and MCPB (dimethylamine salts) are practically non-volatile; however, inhalation of spray mists should be avoided. Inhalation of the spray is harmful.
Ingestion: The concentrate is not considered a serious hazard due to moderate toxicity. However, the concentrate is considered harmful if swallowed, when classified according to Worksafe Criteria.
Skin: The concentrate may cause irritation and possible damage if contact with the concentrate is prolonged or excessive. Some absorption of MCPA and MCPB through the skin is possible.
Eye: The concentrate is corrosive and may cause eye damage.

Other Information: 6.1D acute toxicant, 6.3A skin irritant, 6.5B sensitiser, 6.8B reproductive or developmental toxicant, 6.9B target organ toxicant, 8.3A eye corrosive, 9.1A aquatic toxicant, 9.2A soil toxicant, 9.3C terrestrial vertebrate toxicant, TOXICITY

Harmful - may be harmful if swallowed, inhaled or absorbed through the skin. May cause skin irritation or sensitisation from prolonged skin contact. May cause liver damage from repeated oral exposure at high doses. May cause reproductive/developmental damage from repeated oral exposure. CORROSIVE Danger - this product is corrosive and may cause eye damage.
ECOTOXIC
Very toxic to aquatic organisms. Selective herbicide - very toxic to some plant species. Harmful to terrestrial vertebrates.
4. FIRST AID MEASURES

**Inhalation**
For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. Begin artificial respiration if the victim is not breathing. Use mouth-to-nose rather than mouth-to-mouth. Obtain medical attention.

*Remove patient to fresh air. Lay down and keep warm and rested. If breathing is shallow or has stopped ensure airway is clear and apply resuscitation. Seek medical assistance immediately.*

**Ingestion**
Never give anything by mouth to an unconscious person. If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre (0800 764 766). Seek medical assistance immediately.

**Skin**
Immediately flush body and clothes with large amounts of water. Remove contaminated clothing and footwear. Wash affected areas with soap and water. If a large area is affected seek medical assistance.

**Eye**
Flush eyes with plenty of water for 15 minutes holding eyelids open if necessary. Seek medical assistance. Remove contact lenses, if present and easy to do.

**First Aid Facilities**
Facilities storing or utilizing this material should be equipped with an eyewash facility and safety shower.

**Advice to Doctor**
Treat symptomatically.

5. FIRE FIGHTING MEASURES

**Extinguishing Media**
If involved in a fire, the product will not burn. Choose extinguishing media to suit the burning material.

*Water fog, foam, carbon dioxide or dry chemical.*

**Specific Methods**
Keep up wind. Do not allow washings to reach sewage or effluent systems.

**Hazardous Combustion Products**
May emit toxic fumes of hydrogen chloride or phosgene if involved in fires or exposed to extreme heat.

**Protective Equipment**
Full protective clothing and self-contained breathing apparatus.

**Flash Point**
Not flammable

**Other Information**
Location Certificate: Not applicable
Hazardous Atmosphere Zone: Not applicable
Number of Fire Extinguishers: Not applicable

6. ACCIDENTAL RELEASE MEASURES

**Spills & Disposal**
Wear protective clothing. Clear area of unprotected personnel. Contain liquid spill and absorb with sand, soil or absorbent granules. If spill does enter waterways contact the local authority. Collect in an appropriate sealable container for disposal in an approved landfill.

**Personal Protection**
For appropriate personal protective equipment (PPE), refer Section 8.

**Environmental Precautions**
Prevent from entering drains, waterways or sewers. This product is a herbicide and spills can damage crops, pastures and desirable vegetation.

7. HANDLING AND STORAGE

**Corrosiveness**
Corrosive to eyes.

**Handling**
Avoid skin and eye contact and inhalation of spray mist.

APPROVED HANDLER: This product must be under the control of an approved handler when applied in a wide dispersive manner; or used by a commercial contractor.

TRACKING: Is not required

RECORD KEEPING: Records of use as described in NZS 8409 Management of Agrichemicals must be kept if 3L or more is applied within 24 hours.

BEWARE: Spray drift hazard. Apply this product carefully. Spray drift may cause serious damage to other desirable plants.

**Storage**
Keep out of reach of children.

Store in original container tightly closed and in a locked, dry, cool area away from foodstuffs, fertilisers and seeds. Storage must be in accordance with NZS 8409 Management of Agrichemicals.

Stores containing 100L of this product require secondary containment and
Material Safety Data Sheet

Infosafe No™ 3NURI Issue Date :March 2014 ISSUED by NUFARMNZ
Product Name TRIBAL™ GOLD

Packaging
- Always read the label and any attached leaflet before use.
- When stored with substances of the same hazard classification the aggregate quantity must be considered. For full details refer to the current NZS8409 Management of Agrichemicals and the HSNO Regulations.

Other Information
- Aggregate Storage Volume Thresholds:
- To be considered are subject to signage, and more than 100L require emergency response plans.
- HARMFUL * CORROSIVE * ECOTOXIC - keep out of reach of children

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards
- No exposure limits (WES, TEL or EEL's) have been specifically assigned for this product.
  - WES TWA for dimethylamine = 10ppm and 18mg/m³

Personal Protective Equipment
- When opening the container, preparing spray and using the prepared spray wear safety goggles, waterproof gloves, washable hat, cotton overalls buttoned to the neck and wrist, and boots.

Eng. Controls
- Handle in well ventilated areas, generally natural ventilation is adequate.
- When working with the concentrate in confined spaces, it is recommended that forced ventilation be used to remove traces of dimethylamine vapour from the working atmosphere

Hygiene Measures
- Do not eat, drink or smoke while using.
- Remove protective clothing and wash hands and face thoroughly before meals and after work.
- Wash protective clothing daily after work.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
- Brown - amber liquid

Solubility in Water
- Soluble

Specific Gravity
- 1.072

pH Value
- 8.5 - 9.5 (1%)

Vapour Pressure
- MCPA & MCPB dimethylamine salts are not volatile

Flash Point
- Not flammable

Other Information
- (SL) Soluble concentrate

10. STABILITY AND REACTIVITY

Stability
- Stable under normal conditions of handling and storage.

Materials to Avoid
- Reaction of the concentrate or spray mix with acids will precipitate solid MCPA and MCPB and largely de-activate the product and cause blockages in spray equipment.

Hazardous Reaction
- May react violently with strong oxidising material such as chlorine.
  - If strong alkalies such as caustic soda are added, dimethylamine vapour will be released.

11. TOXICOLOGICAL INFORMATION

Toxicology Information
- MCPA: MCPA is considered to be of moderate toxicity to man. There have been very few reported acute toxic effects on users over many years. Several deaths have been recorded, but all of these have been deliberate suicide, generally using the sodium salt.
- MCPB: MCPB is of moderate toxicity to man.

Health Hazard
- Acute over exposure: Headache, nausea and vomiting with possible twitches and spasms in extreme cases.

Inhalation
- Not considered a serious hazard because MCPA and MCPB (dimethylamine salts) are practically non-volatile; however, inhalation of spray mists should be avoided. Inhalation of the spray is harmful.

Ingestion
- The concentrate is not considered a serious hazard due to moderate toxicity. However, the concentrate is considered harmful if swallowed, when classified according to Worksafe Criteria.

Skin
- The concentrate may cause irritation and possible damage if contact with the concentrate is prolonged or excessive. Some absorption of MCPA and MCPB through the skin is possible.
Material Safety Data Sheet

Infosafe No™ 3NURI Issue Date: March 2014 ISSUED by NUFARMNZ

Product Name TRIBAL™ GOLD

Eye

The concentrate is corrosive and may cause eye damage.

Acute Toxicity - Oral

Acute oral LD50 (rat) 700mg/kg (MCPA), 680mg/kg (MCPB)

Acute Toxicity - Dermal

Acute dermal LD50 (rat) >1,000mg/kg (percutaneous, MCPA), >2,000mg/kg (percutaneous, MCPB)

Acute Toxicity - Inhalation

LC50 (rat) (4hr) >1.14mg/L air (MCPB)
LC50 (rat) (4hr) >6.36mg/L air (MCPA)

Subchronic/Chronic Toxicity

Liver and kidney damage has been noted in laboratory animals but only after excessive doses.

The Australian Acceptable Daily Intake (ADI) for MCPA for a human is 0.01 mg/kg/day, set for the public for daily, lifetime exposure. This is based on the NOEL of 1.1 mg/kg/day, the level determined to show no effects during long term exposure for the most sensitive indicators and the most sensitive species. (Ref: Comm. Dept. of Health and Ageing, Office of Chemical Safety, 'ADI List', September 2013).

The Australian Acceptable Daily Intake (ADI) for MCPB for a human is 0.01 mg/kg/day, set for the public for daily, lifetime exposure. This is based on the NOEL of 1.1 mg/kg/day, the level determined to show no effects during long term exposure for the most sensitive indicators and the most sensitive species. (Ref: Aust Govt Dept. of Health, Office of Chemical Safety, 'ADI List', September 2013).

12. ECOLOGICAL INFORMATION

Environ. Protection

Do not spray in areas where damage to sensitive plants may result from direct application or spray drift. Do not spray in high winds.

Persistence / Degradability

MCPA, MCPB and flumetsulam are not rapidly degradable.

Bioaccumulation

MCPA, MCPB and flumetsulam are not bioaccumulative.

Acute Toxicity - Fish

LC50 (96h) rainbow trout = 91mg/L for MCPA
LC50 (48h) fathead minnow = 11mg/L for MCPB
LC50 (96h) silverside minnow = >379mg/L for flumetsulam
LC50 (48h) daphnia = 55mg/L for MCPB sodium salt
LC50 (48h) daphnia = >190mg/L for MCPA

Acute Toxicity - Daphnia

EC50 (96h) Navicula pelliculosa = 0.21mg/L for MCPA
EC50 (48h) daphnia = 0.42mg/L for MCPB sodium salt
EC50 (5d) Scenedesmus costaltum = 0.003mg/L for flumetsulam

Acute Toxicity - Other Organisms

EC50 Bobwhite quail = 377mg/kg for MCPA
LD50 bee = 104µg/bee for MCPA
LC50 bee = >100µg/bee for flumetsulam

13. DISPOSAL CONSIDERATIONS

Product Disposal

Dispose of product only by using according to the label, or at an approved landfill.

Container Disposal

Triple rinse empty container and add rinsate to spray tank. Recycle empty container. Otherwise crush and bury in a suitable landfill.

14. TRANSPORT INFORMATION

It is good practice not to transport agricultural chemical products with food, food related materials and animal feedstuffs.
